FP

Height-adjustable legs for accurate leveling and alignment

Precision-engineered lightweight all-aluminum frames prevent bowing

Grab onto the perfect blend of style & strength

LIFETIME WARRANTY

FP furniture products are protected by a limited lifetime warranty.
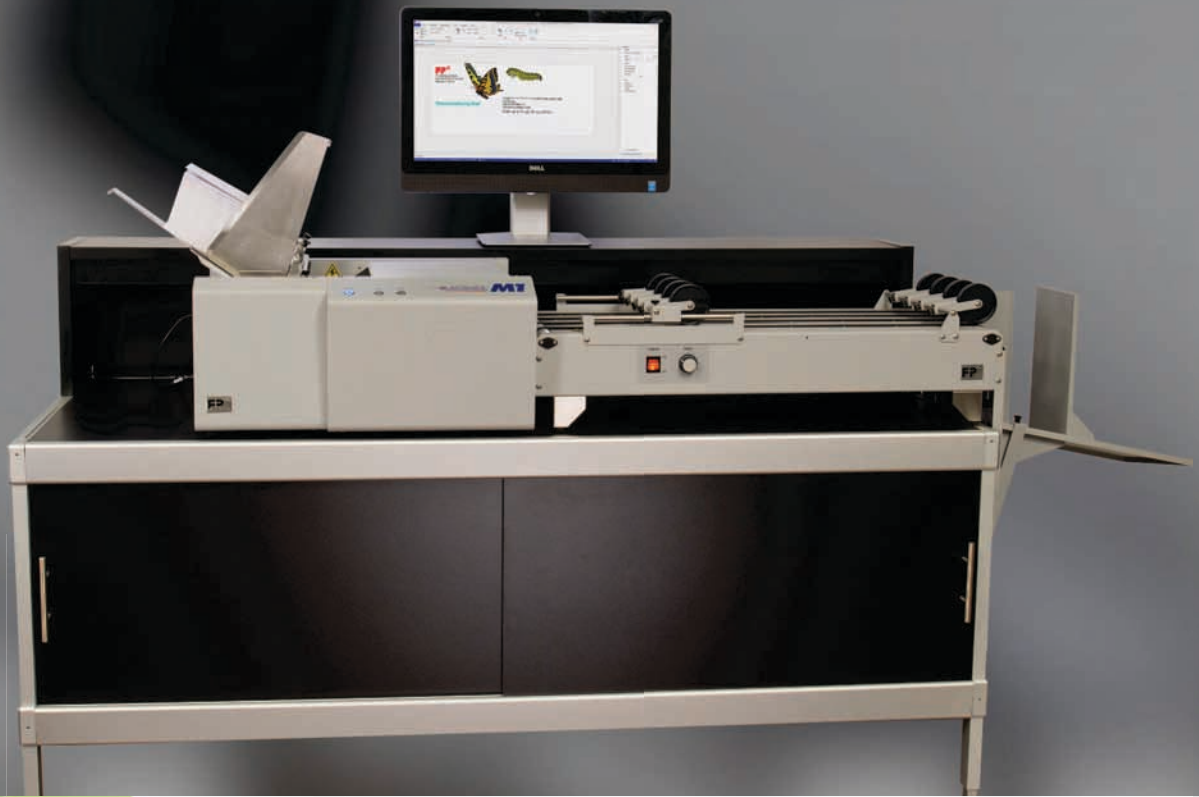

Designed for FP

FP Mail Equipment Furniture is designed to not only turn heads, but provide superior protection for FP machines.

Did you know that weak mailroom furniture can cause mailing equipment to malfunction or even break?

Our engineers worked with **Hamilton Sorter** to create a line of furniture that increases the lifespan of your FP mailing machines. These sturdy furniture products were designed to prevent sagging and vibrations that can damage heavy mailroom equipment.

Our furniture line reduces equipment downtime and service calls by providing a strong, stable platform, leaving your mailroom fully functioning and efficient.

Safety is our greatest concern. FP furniture eliminates worry about wobbly, weak or underrated tables that could injure your workers.

You know the FP Red in our logo, but we're green at heart.

FP Mailroom Furniture is designed to minimize the impact on our environment by using recycled materials and refined manufacturing processes to reduce waste. We're continually improving the methods to re-use and recycle.

- All the board used in FP Mailroom Furniture is made from 100% recycled material.

- All the aluminum used in FP Mailroom Furniture is over 44% recycled.

- The cardboard packaging material is made with recycled material.
